

**Prototype 1** (connected to Storyboard 1)

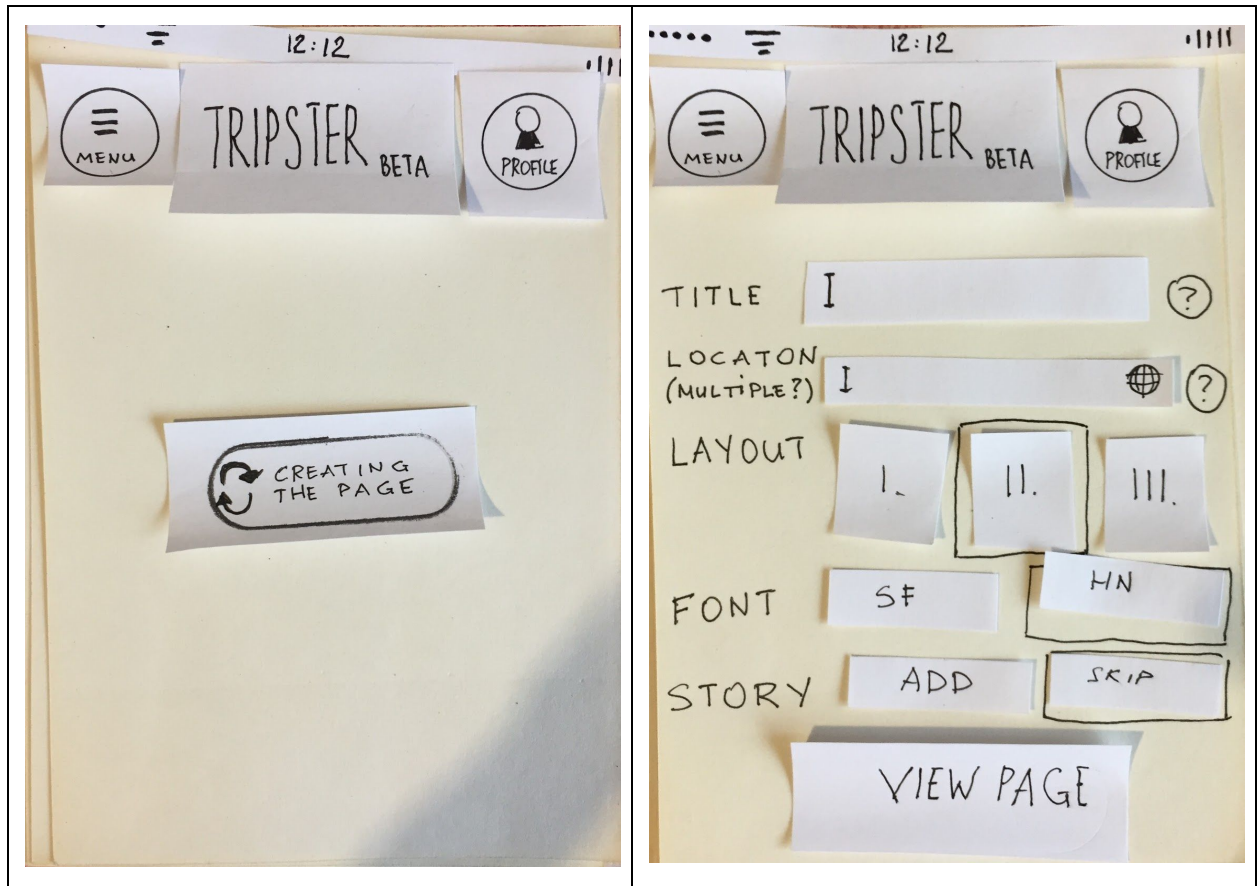

Point of View: Making bunch of pictures while on vacation might be nice, but storing and forgetting about them make things only worse. Reviving good photos may be fun and satisfying experience. As well as post whole photo album while traveling.

Starting with "Camera Roll"

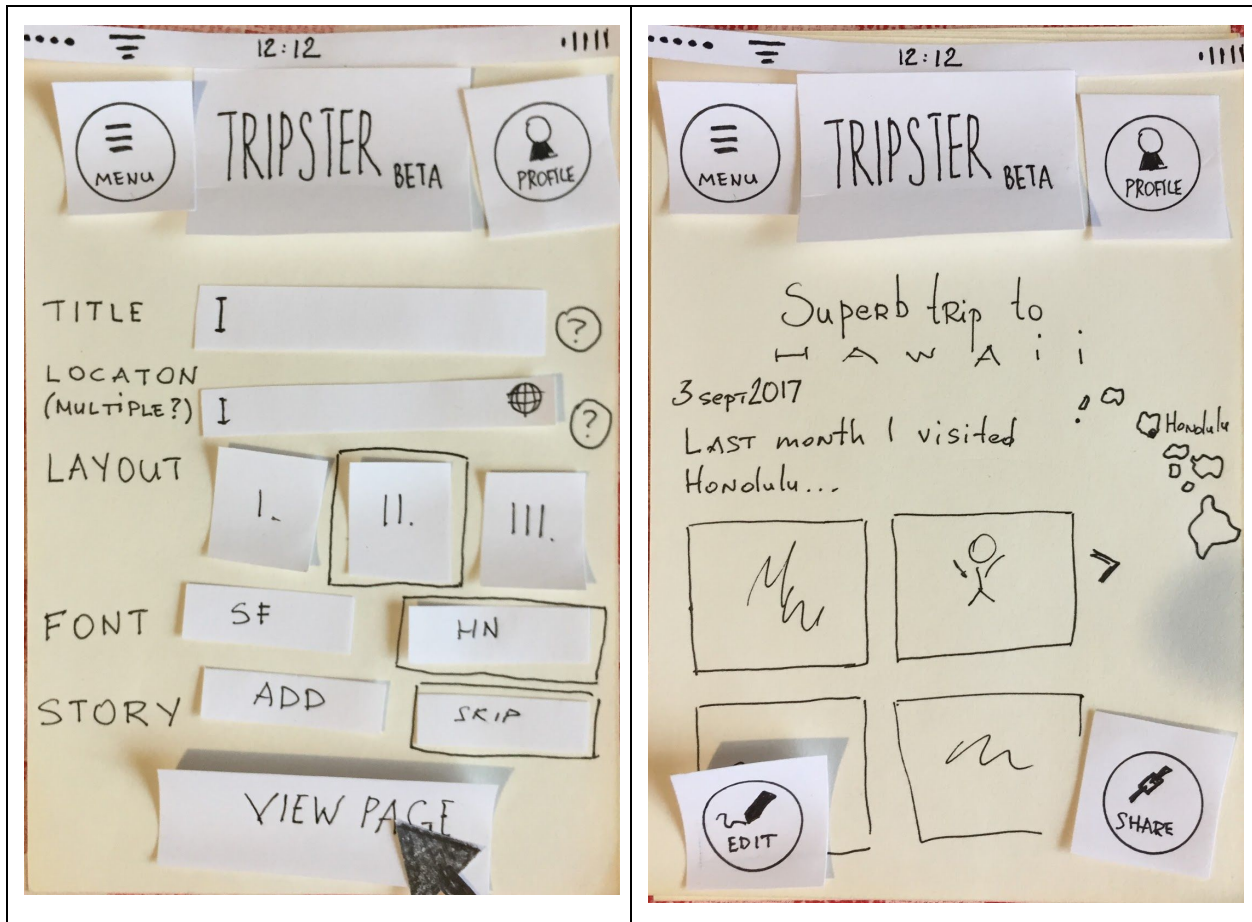

Choosing 3 pictures in Camera Roll and proceeding to the Page

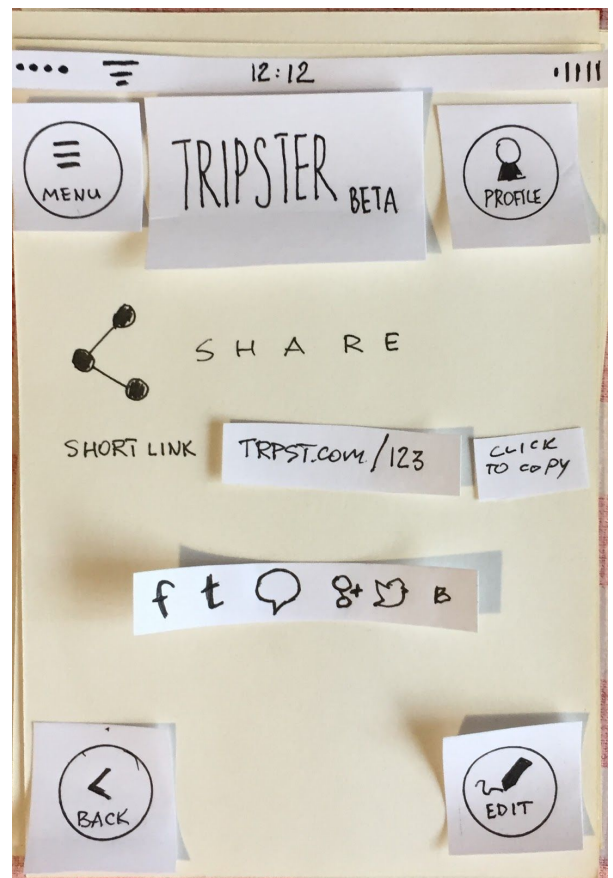

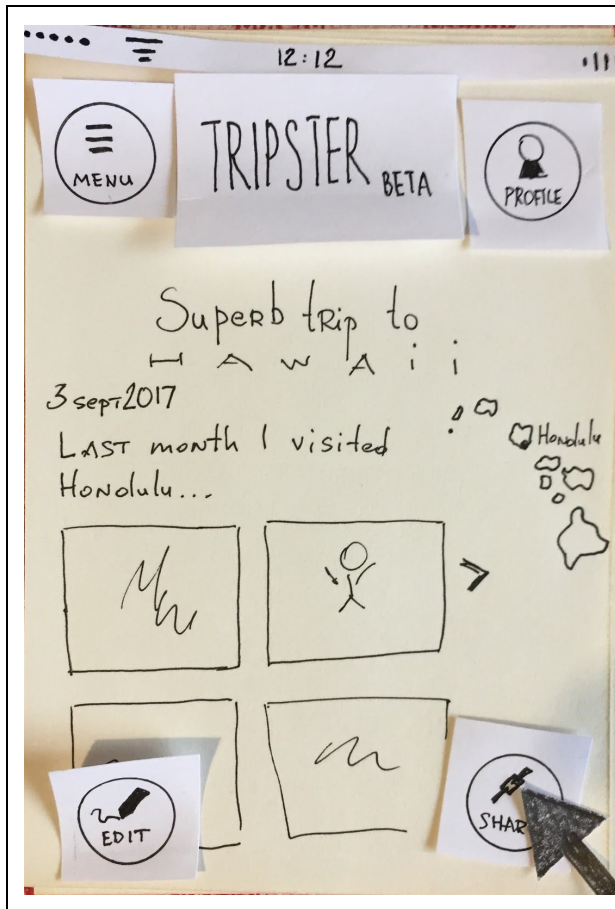

Editing Page information

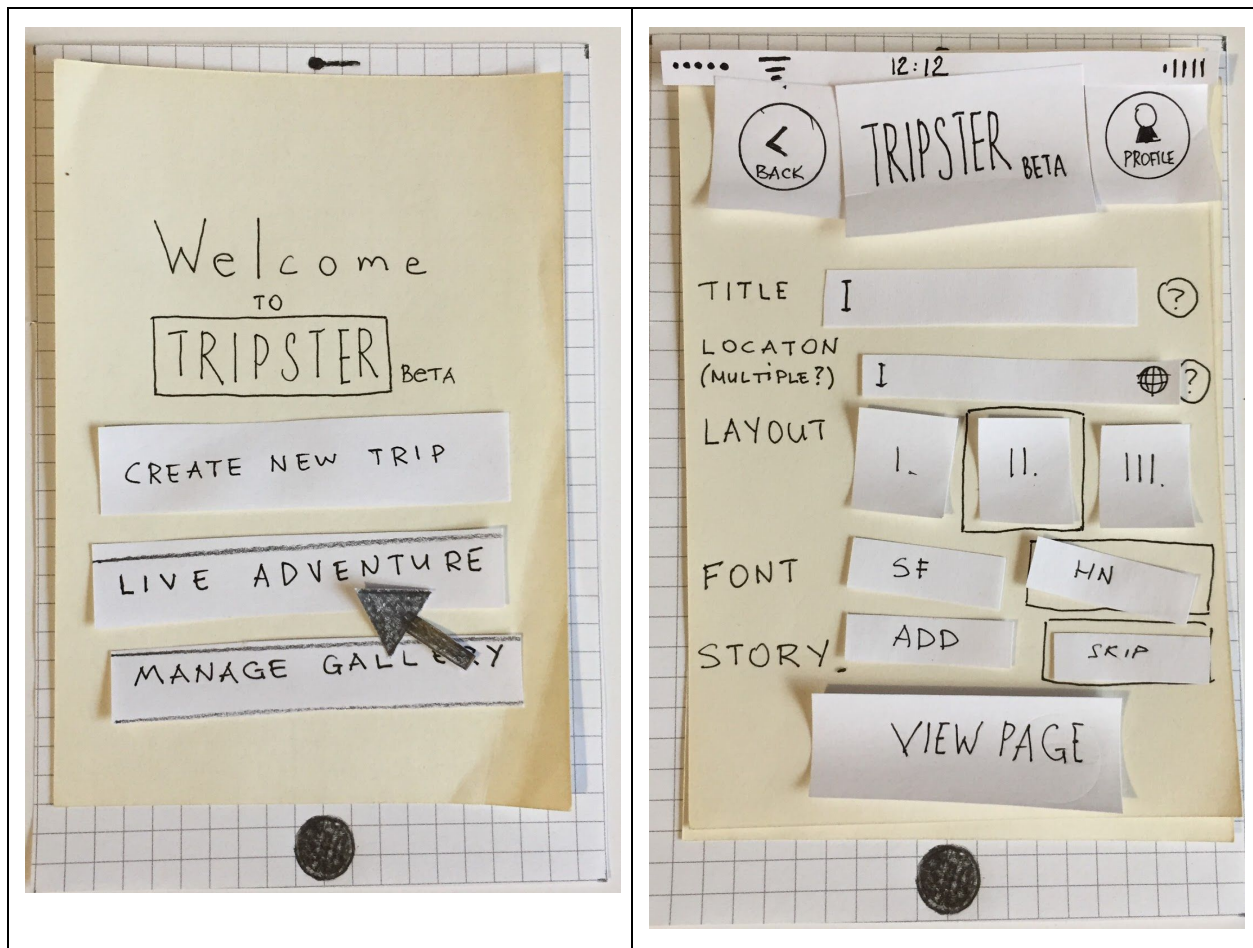

And finally proceeding to created Page

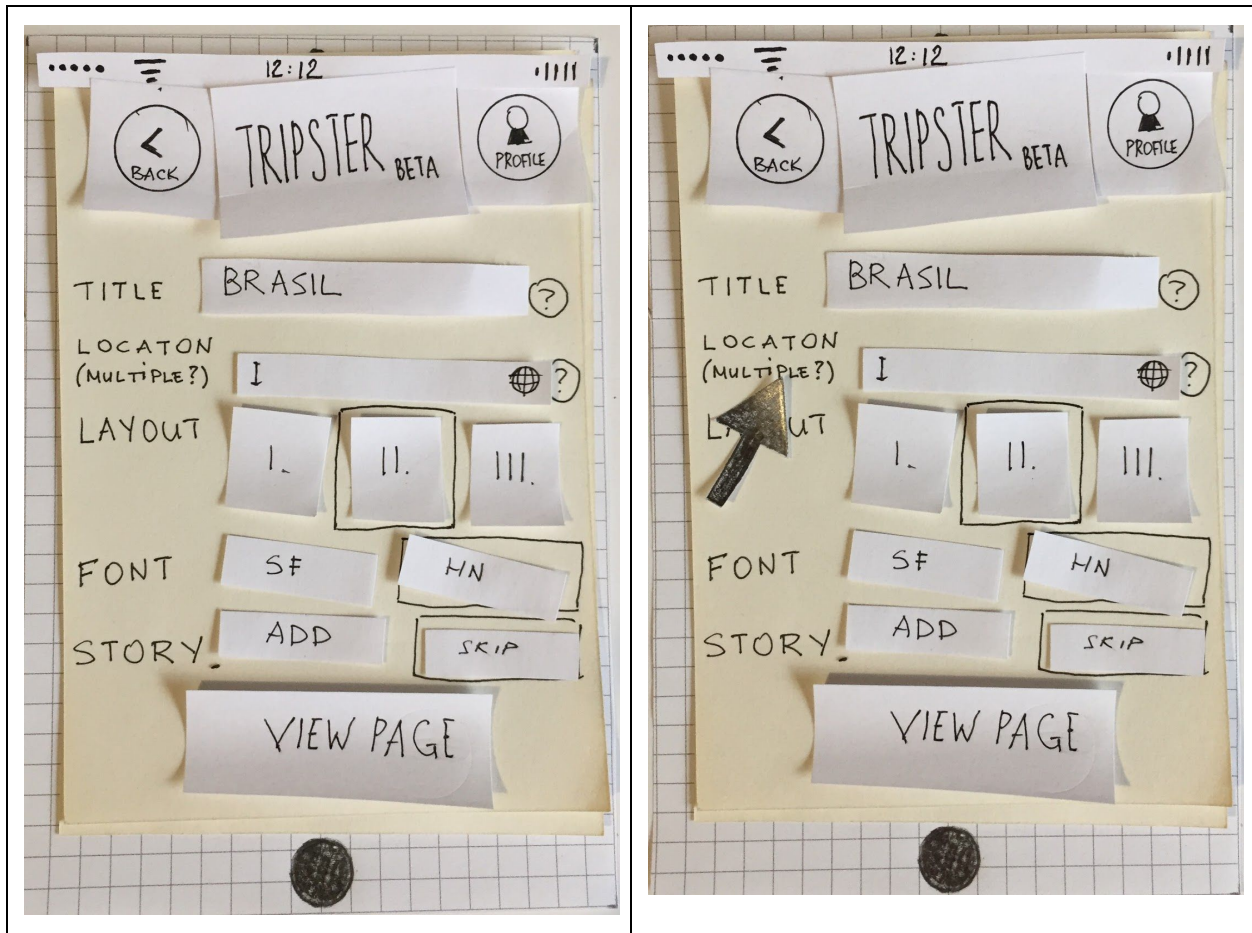

Now it's possible to share Page in numerous ways

**Prototype 2** (connected to Storyboard 2)

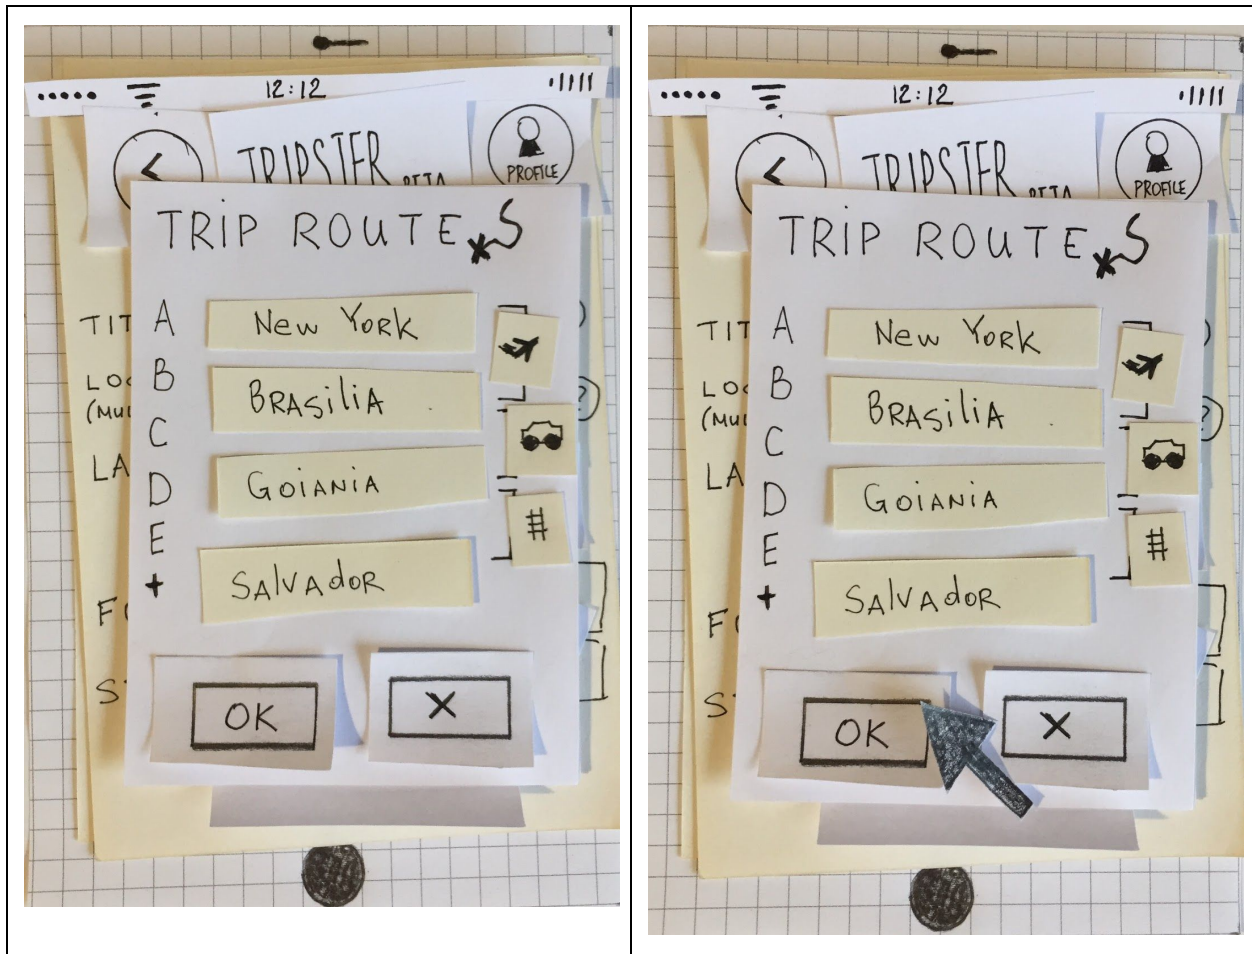

*Creating Page in Gallery while on vacation*

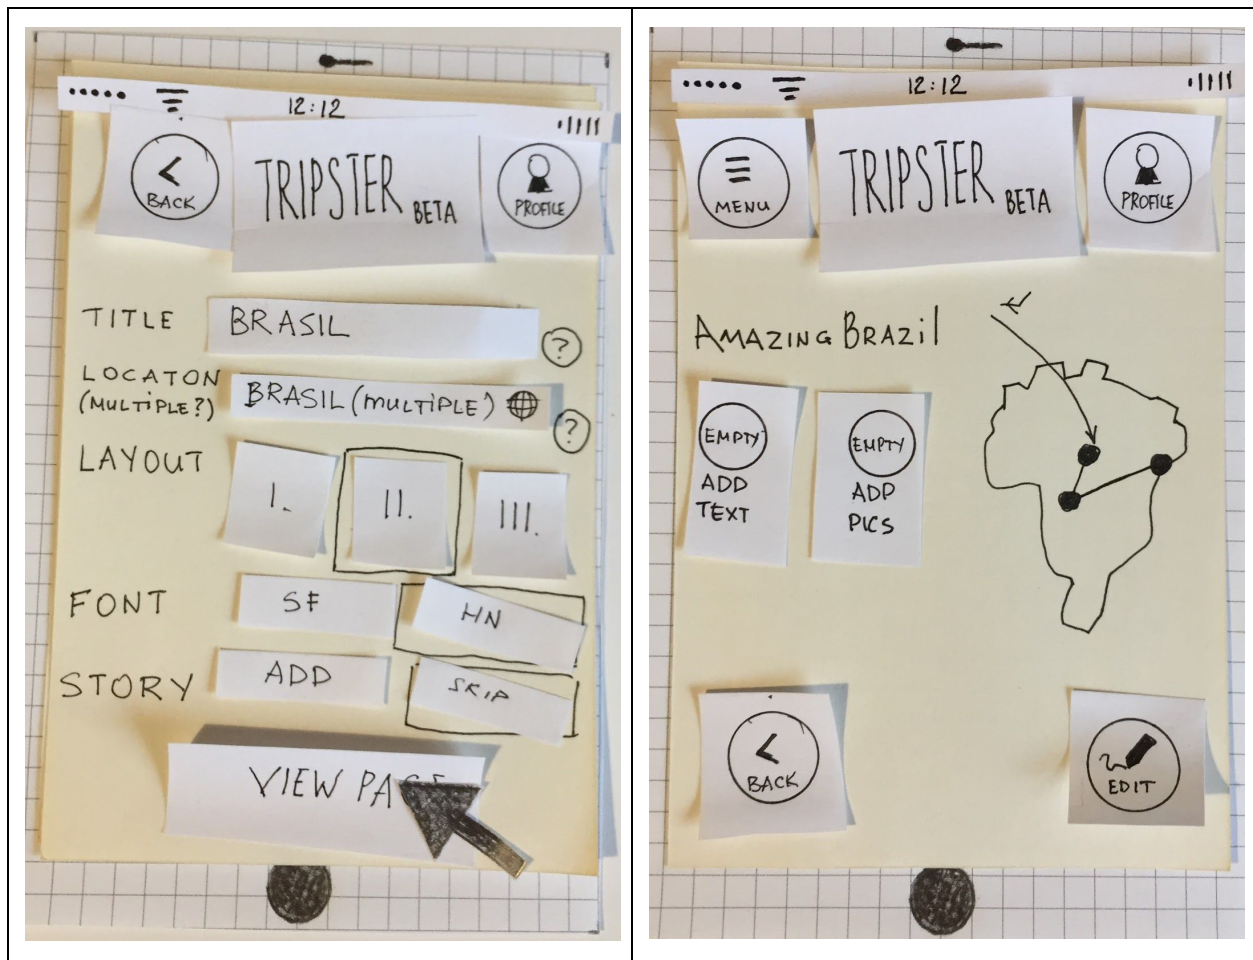

Entering information to create new Page, and choosing multiple trip locations

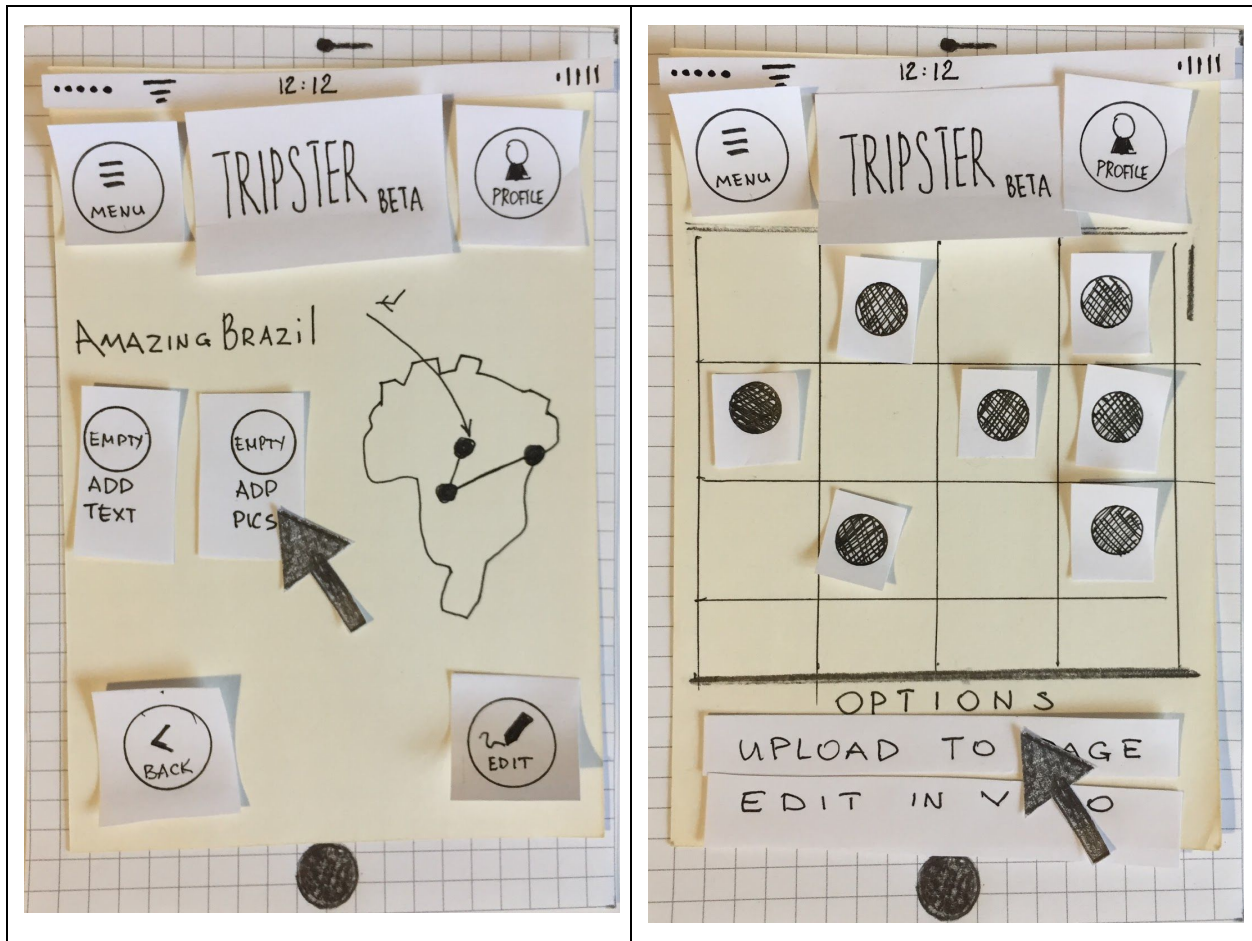

Creating route map point by point

Generating page and seeing the result

Choosing to add some content, this time – pictures, but we also can add some text  
Selecting pictures in Camera Roll

*Uploading pictures and choosing to delete them from phone after process is finished*
